Parimatch: account, welcome, apps and operations — Launch series and stability

Series	7 values, s	Mean, s	Median, s	Min, s	Max, s	Success/errors
Android cold	6.310, 6.310, 5.790, 4.880, 6.180, 5.790, 6.960	6.0314	6.180	4.880	6.960	7 / 0
Android warm	1.680, 1.095, 1.860, 1.725, 1.275, 0.510, 1.680	1.4036	1.680	0.510	1.860	7 / 0
iOS cold	6.750, 4.230, 5.210, 5.630, 5.770, 6.050, 4.370	5.4300	5.630	4.230	6.750	7 / 0
iOS warm	1.020, 2.450, 2.175, 1.020, 2.395, 1.240, 2.065	1.7664	2.065	1.020	2.450	7 / 0

I measured the interval from selecting the Tower Rush card to the active Build button. Cold: cleared data; warm: saved cache. Opening the shell and installing the APK are not included in this interval. Outside the main series, I interrupted the connection before acceptance: a debit of 0 PKR; after acceptance I re-read the previous round and

its single payout. Errors from the artificial network disconnection were not added to the denominator of 28 regular launches.

SUP-PK-PARIMATCH support. I wrote via Live Chat in ur-PK at 04.11.2026 09:21:00 PKT on the topic of the difference between game Cashout and external withdrawal. Auto-reply after 1 s; first substantive reply 04.11.2026 09:23:24 PKT, after 144 s; resolution 04.11.2026 09:28:21 PKT, after 441 s from the request. A separate question in en-PK gave the same sequence of steps. Channel hours 24/7. The monetary adjustment under this clarification — 0 PKR; the bonus correction of 0.00 PKR relates only to WELCOME-PK-PARIMATCH.

Limits and protection. I set a deposit limit of 6900.00 PKR per PKT day, then reduced it to 4600.00 PKR immediately. An increase had a delay of 48 hours. The session limit — 39 min; an accepted round was brought to settlement. I checked the self-exclusion scenario for 180 days: the next login to betting was blocked, and access to the balance withdrawal request was separated from the permission to play.

In most rules, the game is similar to volleyball, although some things are also from tennis. The match consists of several games, during which the winner is the one who first scores 21 points. The game goes to two or more games. Thus, victory can be obtained with a score of 2:1 or 2:0.

In the early stages of tournaments, one often encounters players who have not yet had time to make a name for themselves, as a result of which they are underestimated by bookmakers. If you are going to bet on badminton by placing a wager on an underdog, it is best to do so in the initial stages.

Gamblers also need to take into account the odds when the line appears for this game.

Most bookmakers provide video broadcasts of the game in good quality, so before you start betting, watch a few matches, study the participants, conduct an analysis and develop or try out ready-made strategies for badminton betting.

For cryptocurrencies, crediting occurs only after the required number of confirmations in the network has been received.

What to do if the deposit has not arrived?

If you have deposited funds but they have not yet appeared in the balance — there is no need to worry.

In most cases, the delay is related to the technical specifics of payment processing on the side of the bank, the payment system or the blockchain.

Below is a step-by-step instruction that will help you quickly sort out the situation.

Observed names and indicators: Step 1. Check the waiting time.

Before panicking, make sure that the regulated crediting time has indeed passed:

▫Bank transfer / Card: instantly.

▫P2P bank transfer: up to 30–60 minutes.

▫Cryptocurrency: the time depends on the blockchain network load and the required number of confirmations.

Observed names and indicators: Step 2. Prepare the necessary data.

If the specified time has passed and the balance has not updated, prepare the data for the support service. The list of documents depends on the deposit method:

Observed names and indicators: Option A: If you deposited by card or P2P.

Please prepare a screenshot/photo of the check or a receipt from your banking app or electronic wallet. The receipt must clearly show:

Observed names and indicators: ▫Transfer amount;; ▫Date and exact time of the operation;.

▫Recipient's details (the card or wallet number to which you sent the funds);

▫Payment status (must be "Successful" or "Completed").

Observed names and indicators: Option B: If you deposited with cryptocurrency; To record and review the request, you will need:.

▫A link to the transaction in the blockchain or the transaction hash (TxID / HASH ID).

▫A screenshot of the transaction — if the payment was made via Binance Pay.

Observed names and indicators: Step 3. Contact the support service.

Once you have prepared the necessary data, send a request to our online chat:

1. Open the support service online chat.
2. Briefly describe the situation and attach the prepared files (receipt screenshot, hash or link).

"Processing" status (for cards): If the payment is stuck in your bank with the status "Processing" or "Awaiting confirmation", we will not be able to credit it until the bank finally debits the funds.

Network waiting (for crypto): Verification of cryptocurrency transfers may take some time, since the crediting speed directly depends on the transaction processing in the blockchain network.

Security: Never share your full card details (CVV code, PIN codes or passwords) with anyone. To confirm a deposit, the support service only needs the operation receipt or the transaction hash.

This is only a separate part of the available markets. But football bets can be more diverse, especially in live, where additional outcomes will appear during the match.

Observed names and indicators: Features of football betting.

Before starting to place bets online, a bettor should study the rules and features of the chosen discipline. It is also worth learning to analyze factors that can change the outcome of events. Thus, an online football bet cannot give the desired result without knowledge of the teams' current form, the presence of injured or suspended players, and changes in the coaching staff.

In football, matches are played on a field with grass or an artificial green surface. Therefore, it is additionally recommended to check the weather forecast and determine which of the teams will have the home field. Here matches consist of two halves of 45 minutes each, with a possible penalty shootout series (if the winner was not determined during regulation time).

Handball is a relatively young sport. The first competition in it was held at the 11 Olympics in Germany, and only after that did world and European championships begin to be organized. Handball bets are gaining popularity, and many bookmakers include them in their lines with the opportunity to make various types of predictions.

This game is played indoors on a court with dimensions of 40 by 20 meters. A team consists of 7 players, 6 of whom play on the court and one goalkeeper. The goal of the game is to score as many goals as possible into the opponent's goal. The match consists of two halves lasting 30 minutes each. Between the halves there is a 15-minute break. Handball is played with the hands; there are a number of rules limiting the ability of one team member to hold the ball in hand for no more than 3 seconds. To place handball bets, you need to perform Parimatch login to your personal account and get access to events and odds..

Observed names and indicators: Types of handball bets at the bookmaker Parimatch.

Handball is a team game, and bets on this game are classic for bookmakers. Each type of handball bet has certain specifics. And now about each of them in more detail:

on the outcome. A gambler can bet on the victory of the first or second team, as well as on a draw. Most often, the highest odds are offered on a draw, due to the fact that an equal score at the end of the game is extremely unlikely. A match with two teams approximately equal in capabilities has odds for each of them not lower than 7.00;

on the total. In handball, as a rule, there are always a lot of goals during the game. A total bet involves a prediction of the specific number of goals conceded during the match;

on the individual total. In this case, the gambler needs to make a prediction of the total number of goals scored by a specific team;

on the goals of both teams. The bet is similar to the total. Here you need to predict whether the teams will be able to score a certain number of goals. For example, each team — 30 goals;

on the exact number of goals scored. One of the most difficult bets, with high odds. A bet on a win with an exact goal difference;

combined bets. The gambler has the opportunity to bet on the victory of one team and on the overall total, etc!

Where to bet on handball?

Modern bookmakers offer players a diverse and rich line for betting. Handball is gaining more and more popularity in the betting sphere. The line for this game can be found on many CIS bookmaker websites. However, do not rush to start cooperating with the first institution you come across. Carefully study its terms, read reviews about it, and only then make a decision. When choosing a bookmaker for handball bets, pay special attention to how many years the bookmaker has been operating on the market, what its rating is, what odds and margin it offers. Also take into account the possibility of receiving bonuses upon registration or active activity on the platform. One of the most trusted companies for handball bets in Uzbekistan is considered to be the bookmaker Parimatch Uzbekistan, whose services have been used by a huge number of players for many years.

Where to find information about handball bets?

Information about handball bets must be provided by the bookmaker that has included this sport in its line for betting. In a special section of each company, the rules of the game, the schedule of tournaments, a description of the calculation of odds, etc. are described. In addition, numerous thematic forums are also full of information about bets and opportunities at various bookmakers. However, these sources must be treated very selectively so as not to get false information.

What do you need to know about handball predictions?

Before starting to make predictions for any sports events, it is extremely important to study in as much detail as possible the sport on which you intend to bet. As for handball, here it is not advised to bet on the underdog. Here,

Tower Rush

by analogy with football, a random goal scored in the last seconds very often decides the outcome. Weak teams extremely rarely win due to luck, which is why you should bet on the losing team only with a positive handicap.

A handball betting strategy is extremely important for both beginners and experienced players. Do not try to make predictions at random, this never ends well. your bet will win only if you have previously done good work regarding analyzing previous championships, studying all the participants of each team, and objectively assessing the capabilities of the playing squads.

It is best to place a total bet in live. Watch the competition, especially if a clear favorite and a clear underdog are playing. There is a huge probability that the winner will not want to spend much effort for a clear victory, but will simply outplay the opponent on class. Teams equal in strength, as a rule, are characterized by approximately equal numbers of goals scored. As for favorites and underdogs, each time the result is unpredictable.

There are many strategies online, both paid and free, that a gambler is recommended to try out in test mode and only then proceed to real predictions. When placing bets, manage your bankroll sensibly and be sure to apply a strategy. It is recommended to apply classic analysis before playing and then start watching the broadcast, placing bets in an informed manner. Keep in mind all the features of handball and its differences from other team games.

Every distributor of gambling content is connected by direct contract, officially, without scripts and homemade ports. As a result, our clients receive the best online casino games that have a certified RNG, adaptive bet and bonus settings, transparent paytables and uptime that allows spinning the reels under conditions of maximum session continuity. Finally, the video slot catalog is updated weekly, and our own "Parimatch Exclusive" showcase adds branded slot machines unavailable outside the resource.

The portfolio of entertainment is further enriched by Parimatch live casino, whose collection is formed by gambling companies of the level of Evolution, Pragmatic Play Live, Ezugi and a dozen other well-known providers. So the "TOP" tab in the live dealer section contains such hits as Crazy Time, PowerUp Roulette, Speed Baccarat A, VIP Blackjack 13 - Emerald, etc. Note that sorting by type — roulette, blackjack, baccarat, poker, interactive shows — saves you from aimless scrolling, and the "HD" badge guarantees the highest quality broadcasts even on mobile LTE.

In addition to the main action, Parimatch casino presents fast and TV games, bingo and virtual sports. The club administration maintains a permanent section of tournament events with large prize pools, often crossing the $10-20 million mark. There is a leaderboard for big wins and broken jackpots, and all this splendor can be played both in demo version format for familiarization (except Live Casino) and for real money, including bonus funds.

Observed names and metrics: Parimatch slots online.

In the slot hall of the Parimatch online casino, eclecticism and abundance reign. Here any irresistible temptation of Fortune will find its ideal response.

"Gates of Olympus" will build an endless tumbling chain of combos on six reels, where a sudden multiplier repeatedly increases the win. "Fire in the Hole 3" turns every drop of symbols into an xBomb salute, opening new rows and stretching the giving potential of the machine's characteristics. For fans of fixed lines, "Book of Ra Deluxe" is suitable as a classic "book" slot with an expanding symbol. For hunting cluster payouts, test "Starburst Galaxy"; for retro connoisseurs, we recommend playing "Mega Joker." If you are looking for new sensations, launch "Gates of Hades," which breaks the canonical cascading grid into two game phases with different volatility.

Ultimately, you can pick a list of personal favorites yourself using the "Favorites" tab, adding slot machines from the following categories to it:

Buy Spins — displays all slots with bonus buy. The ideal choice for those who are not used to waiting for luck, preferring instead the ability to instantly activate a free spins round or another prize tour without preludes.

Jackpot — a selection of games with progressive and fixed jackpots. The thing worth logging into Parimatch casino for.

Easter Holidays — seasonal titles with an Easter theme and often favorable RTP dynamics for payouts.

Drops & Wins — Pragmatic Play network tournaments with cash prize drops at random moments.

Recommended — an algorithmic short-list. The official Parimatch casino website automatically ranks new releases and "long-playing" favorites according to the personal statistics and preferences of the registered player.

Megaways — video slots with transforming reels. In them, the number of symbols changes between rounds, and the number of ways to win reaches hundreds of thousands.

All Slots — the complete registry of slot machines, without limiting the output.

Tower Rush

Table Games — digital roulette, blackjack and poker for fans of the classics without a real dealer. In other words, this is where simulators of the most in-demand table entertainment of Parimatch casino are concentrated.

Instant Games — instant scratch cards, crash machines, other fast formats of gambling for real money and for free.

Non-Stop Drops & Races — online slots participating in tournament marathons with a common scoreboard, where points are awarded for multipliers, not for the bet denomination.

Turbo Wins — extremely volatile machines with ultra-fast spins.

Parimatch Exclusive — proprietary titles unavailable on third-party domains.

Trending / New Releases — a dynamic feed of timeless hits and debutants that blew up the gambling community, updated almost daily.

Such segmentation makes it possible to filter the Parimatch casino library to your own temperament and assemble an individual "playlist." At the same time, it is important not to forget about a responsible approach, because it is one thing to play in demo for free, and quite another to risk hard-earned funds. To avoid problems with gambling addiction, set time and deposit limits in advance, and treat winnings as a pleasant bonus to an exciting pastime, not as a source of income.

very original bets. For example, sometimes bets are even placed on which of the teams will win the toss. Standard types of cricket bets come in several variants:

on victory. Placing a wager on a team's victory. But sometimes in cricket there is also a draw, both in score and in time. Most bookmakers do not give the opportunity to bet on a draw, but if it suddenly happens, the company returns the funds to all gamblers who bet on victory;

on winning the tournament. A cricket tournament does not have a large number of participants, which makes it easy to analyze the lineup and bet on this market;

on the bowler. For cricket, it is extremely rare when one of the team members plays significantly stronger and more professionally than everyone else. Betting on the best player is quite risky, however, such wagers always have high odds;

on the total points of the best player. In this case, the gambler makes a prediction on the individual results of the team members;

combined bets!

Before starting cooperation with any bookmaker, be sure to study the nuances of betting, analyze how the strategies work, make test predictions and only then start real earning on bets.

Where to bet on cricket?

Now almost all domestic bookmakers offer cricket betting, not to mention European ones. In order to earn on bets, it is important, first of all, to understand the topic of betting, the sport on which you intend to make predictions and, of course, not to make a mistake with the bookmaker. Always take into account the following criteria when choosing a bookmaker:

how many years it has been operating in the market. Old companies have managed to earn the trust of clients and their long activity itself speaks of the transparency and legality of all its services;

whether there is a bonus system. The presence of bonuses and promotional offers gives the opportunity to get free bets or withdraw won funds after fulfilling certain requirements of the company. This factor is not the most important, however, for a company its presence is a significant advantage;

high odds and optimal margin. The opportunity to place a bet with high odds increases the chances of large winnings!

One of the most stable and proven bookmakers is pmstan, which over many years of active activity in the market has helped a huge number of gamblers earn good money.

Where to find information about cricket betting?

What do you need to know about cricket predictions?

Before proceeding to a cricket prediction, it is necessary to remember the existence of certain features that can affect the outcome of the game:

the results of the toss. According to statistics, the team that wins the toss often gains an advantage during the game, since it is the first to conduct the attack and sets the tone for the game;

weather conditions. A sport such as cricket, probably more than all others, depends on the weather. The weather affects the duration of the match and its outcome as a whole. Therefore, before betting, be sure to check the weather forecast;

the field factor. In cricket, much depends on the pitch covering. The surface of the field affects the speed of the ball's flight!

There are many more factors necessary to familiarize yourself with before starting to bet. In order for predictions to really help you earn, you need a deep study of the issue.

If you have long wanted to receive dividends without leaving the confines of your own apartment, then with the help of sports betting it will be easy to fulfill the dream. Bets on martial arts are available at any time. Many bookmakers offer excellent odds on such sporting events. Also, for betting you can use ready-made predictions so that the bet wins with high probability.

How to bet on Combat Sports in Uzbekistan?

Earning on the victory of your favorite athlete is quite simple. You only need to choose a bookmaker that you can fully trust. The next step will be registration on the website, which usually takes a minimum of time. In order for bets on UFC fights to be accepted, the bettor will need to top up their own deposit. Additional amounts for bets can be obtained by participating in various bonus programs from Parimatch, which can be found on the official website of the platform. This type of sport remains quite predictable. Titled fighters are highly likely to win over a newcomer. The entertainment value of this sport is another reason to start betting today.

You can bet on a fight in the form of an accumulator or a single. The bookmaker may either separate mixed martial arts into a separate category or combine it with traditional boxing fights. Parimatch Uzbekistan offers a broad lineup. On the website you can regularly find interesting offers for betting on title fights. You can bet not only on the outcome, but also on the total, which is available even in passing fights.

MMA betting on the Parimatch website takes place in the Boxing/Combat Sports category. Having selected this section, the bettor will be offered a list of organizations, for example, UFC or Bellator. Next, you will need to select a specific sporting event that the player is confident in betting on. All that remains is to choose the outcome and set a suitable bet size.

A detailed study of the specifics of sports disciplines is the starting point for achieving excellent results during sports betting. Mixed martial arts is no exception. Players can bet on the outcome of a fight by knockout or technical knockout. Either fighter can win, so before the match you need to familiarize yourself with their fighting style and skills. Points are counted in each round, which helps determine the winner during a clash between two equal opponents. In mixed martial arts a draw is provided for, but it happens extremely rarely, so most bookmakers do not even set this outcome as a possible option.

You can place bets on MMA fights on the total by rounds. During a fight between fighters who use the same style, the bookmaker may offer a total bet. The duration of rounds is usually 5 minutes, and their number does not exceed three periods. At the same time, during title fights the conditions may change somewhat. For example, instead of 3 rounds, five may be required to determine the winner. If you bet with a total over or under, you can hit the jackpot simply by studying a fighter's strategy. For example, many athletes like to perform in an economical mode, winning within 1-2 rounds. In that case, betting with a total under 3.5 will be a profitable decision.

To bet on no-holds-barred fights and win, you need to determine the house rules regarding the settlement of completed rounds. Some bookmakers may consider a round completed in which a fighter landed a crushing blow, while other platforms consider only those rounds that ended upon the expiration of the allotted time as settled.

The line may also offer bets on the early completion of the match. Since mixed martial arts involves fighters with different skills and styles, such an outcome is quite realistic. Fighters who adhere to boxing tactics more often finish fights early. The situation looks completely different when the opponents rely on ground fighting. In this case, the fight may drag on considerably and end only after the established number of rounds has elapsed.

Bookmakers also accept bets on the type of victory. A match can end early by:

Observed names and indicators: knockout;; technical knockout;.

voluntary submission of the opponent.

A traditional victory option is a judges' decision after the allotted time has elapsed. In some cases you can bet on a split or unanimous judges' decision at the end of the match. If we are dealing with a title fight, the betting board will be broader, which players who wish to diversify their betting line should take into account.

Observed names and indicators: Advantages of betting on Martial Arts.

Every player has their own reasons for choosing a particular sports competition for betting. Mixed martial arts has gained enormous popularity not by chance. Players can easily track athletes' statistics before a fight. You can find out how comfortable it is for a fighter to compete with boxers, wrestlers or representatives of other styles. You can also find information about injuries recently sustained and the effectiveness of a fighter's recovery after them.

It is definitely worth studying the statistics regarding head-to-head meetings between athletes. If one of them has a clear edge in victories, then their win looks like a more likely outcome of the confrontation. Predictions also help to bet correctly on mixed martial arts. The internet presents many predictors who describe in detail the basis on which they arrived at a particular conclusion. At the same time, bettors are better off conducting their own pre-match analysis and only comparing their conclusions with the expert's opinion.

For betting you also need to navigate the odds set by the bookmaker. It happens that value offers appear in the line, and they should definitely be taken advantage of. Value bets in mixed martial arts mean fights where the bookmaker has incorrectly determined the potential winner or other outcomes, so the odds on the real favorite will be higher than they should be. Value bets allow you to earn on sports while reducing the likelihood of losing your personal savings.

Tower Rush

Mixed martial arts is very popular, so many fights can be watched live. This allows you not only to get money thanks to your favorite player's victory, but also to improve your own mood by engaging in your favorite activity. A rational approach to betting always bears fruit.

Where to bet on Martial Arts?

For betting on mixed martial arts today there are many bookmakers. Bettors are best off taking advantage of the offer of a platform that has many years of experience and a high reputation among players. Parimatch is among precisely such establishments for sports betting.

Where to find information about MMA betting?

Information for betting on mixed martial arts is always freely available. To find it, it is enough to use the internet and study the search results for the corresponding query. Those players who use modern platforms for betting, where extended statistics are presented, can make the task easier for themselves.

What do you need to know about predictions for Martial Arts?

Predictions are used to increase the chances of winning during sports betting. That is precisely why it is so important to find a trusted predictor who will base their own judgments on thorough analytics. Otherwise, the prediction will be hard to call effective.

Table tennis unites millions of spectators and fans around the world. This sport has gained popularity thanks to its high dynamics, as well as simple and understandable rules. It is worth betting on table tennis simply because the outcome of matches in this sports discipline is fairly well predictable. Players only need to choose Parimatch promo codes and understand the types of bets, as well as determine the favorite in the match through simple analytics.

This sport is distinguished by the fact that each game lasts 3 minutes. A rally usually takes up to 8 seconds, so players do not have to wait long for the match to end. Such features make the match interesting both for pre-match betting and in the live section. A meeting can take place until two, three or five victories, and players must change sides of the table after each set. Given the incredible dynamics of the match, bookmakers constantly change the odds on players' victories, so finding truly good quotes on the favorite will be quite easy.

Serves occur in turn, but given the frequency of serves, this does not have a decisive influence on the outcome of the match. The situation is completely different in big tennis, where the player who serves has a serious handicap. Table tennis equalizes the chances of the serving and receiving sides, so during analysis such nuances can be disregarded.

A completely different attitude should be taken to the manner in which a particular athlete plays. Pre-match analytics becomes the key to success for players who decide to bet on table tennis. It would also be useful to observe several meetings between players before choosing a favorite among them and betting on him.

Table tennis betting today takes place within several tournaments. Each of them has a certain regulation, which should be reviewed in advance. The organizer must indicate the maximum duration of the meeting, for example, up to 7 sets. In accordance with the Olympic rules, which are the most widespread, the game takes place until 4 victories. In less popular tournaments, the game may take place until 3 victories or until 5 sets.

What types of Table Tennis bets does the bookmaker offer its visitors

To receive dividends during sports betting, a player will need to familiarize themselves in detail with their specifics. Individual sports allow you to spend less time on preparation. At the same time, table tennis also allows matches to be played in pairs, which must be taken into account before starting the game. The advantage of this sport for the players themselves is that bookmakers can offer a very extensive line and betting board. In addition to standard bets, you can also take advantage of additional outcomes:

total bet.

The types of table tennis bets allow each player to select their own effective strategy for winning. Betting on one of the sides to win is the simplest way to earn on sports. Table tennis simply does not provide for the possibility of a draw based on the results of the match. For this reason, players are offered only two main outcomes. Another interesting option is a bet on victory in a specific set. Such an option allows you to receive a payout much faster, without waiting for the entire match to end.

You can bet on table tennis with a handicap, which is a very common choice among bettors. This option involves setting an additional handicap for one of the sides. The handicap can be by points, by games or by scoring in a separate set. Before choosing such a bet, you need to find out how many sets the match will last. Most often tournaments are held with five or seven sets, that is, until 3 or 4 victories respectively. For this reason, the handicap will not be greater than 3.5. If you choose a handicap by points, it can be very different. When choosing such an option, it is better to focus on the players' style rather than on the size of the handicap.

To make table tennis betting even more exciting, the house may offer its players total bets. This is a classic outcome option in betting, in which the player needs to predict the possible scoring during a sports meeting. As with the handicap, the total bet is presented in several variants. It can be either a bet on the total games or a bet on the total points scored in the match. You can also bet with a total on a specific player, determining his likely effectiveness in attack.

There are also additional types of bets available at certain bookmakers. An additional bet usually involves predicting the final result of a sporting event. For example, bettors may be offered to predict how many sets and games will be played by the athletes. Predicting the score by sets can also be considered an outcome. The bookmaker may offer to predict whether the number of sets will be even or odd. An interesting outcome is determining who will take the first set.

Observed names and indicators: Detailed specifics of the betting system at online bookmakers.

Having studied the proposed betting options, it is easy to discover that much of the success during sports betting depends on the analytics conducted before the start of the match. Experts who follow this sports discipline offer their predictions for upcoming sporting events. It is worth noting that in our country table tennis gained wide popularity relatively recently, so the quality of predictions often leaves much to be desired.

It is for this very reason that experienced bettors always handle their pre-match preparation themselves. All the necessary information is available on the internet, so to increase your personal chances of winning it is enough to carefully study the upcoming matches. As practice shows, competitions featuring athletes from China often end in their favor. It is in this country that table tennis has become incredibly popular, which is why quite a few tournaments are held on its territory. At the same time, the CIS countries also have a decent table tennis school, so domestic athletes can contend for high honors.

To increase your own chances of winning, it is very important not to have personal favorites among the players. Do not forget that betting is a source of income, so emotional bets often lead to losses. It is better to study in detail the athletes' form, their results in head-to-head matchups, as well as the nuances of the tournament, and only after that draw a conclusion. The odds set by the bookmaker also help form a correct idea of the upcoming match. Favorites always receive lower odds, so to get the biggest payout it makes sense to bet on the underdogs if you are confident in their victory. Do not forget to experiment with strategies, which will allow you to find the most effective method for betting.

Wagering is the condition for wagering a bonus that the company sets for the player.

This is how many times the player needs to wager their money before the funds are transferred to the main balance.

Currently, wagering exists only in some Welcome bonuses; all other promotions are without wagering.

If the player made a deposit of 100$ under a promotion with a wagering condition of x25 (for example, “Casino bonus 200%”) - this means that they must place bets totaling 200$ X 25 = 5000$.

Both lost and won bets count toward the total wagering amount.

Bets of Cashout or with odds of 1.00 are not counted.

Observed titles and indicators: SPORTS RULES; Main markets.

The terminology used in these rules may vary depending on the sport. For example, outcomes may be described as goals (in football), points (in basketball), sets (in tennis), maps (in esports) or rounds (in boxing). Similarly, participants may be teams, individual players or pairs; time segments may be called a match, half, quarter, period, map or round; and competitions may be called tournaments, leagues, championships or cups. These examples are provided to illustrate possible differences across different sports.

Match winner – predict the winner of the match.

3-way bet – predict the outcome of an event that has three possible results: victory of the first team, a draw, or victory of the second team.

2-way bet – predict the outcome of an event that has only two possible results: victory of the first team or victory of the second team.

Total – predict whether the total number of goals scored by both teams in the match will be more or less than the specified number. If the final total is exactly equal to the specified number, the bet will be void.

Handicap – predict which team will win after applying the handicap to the actual score. A positive or negative number of goals is added to the team's final score. If the result taking the handicap into account is a draw, the bet will be void.

Double Asian handicap is a handicap bet (H) that is a multiple of 0,25 but not a multiple of 0,5 — for example: H = -0,25, +0,25, -0,75, +0,75, etc.

Tower Rush

Such a bet is interpreted as two separate (simple, "half") bets with the same odds, using the nearest handicap values that are multiples of a quarter point: H1 = H - 0,25 and H2 = H + 0,25.

The stake amount for each "half" bet is equal to half of the total amount of the "double" bet.

Double total is a type of total bet where the total value (T) is a multiple of 0,25 but not a multiple of 0,5 — for example: T = 2,25, 2,75, 3,25, etc.

This bet is also interpreted as two separate (simple, "half") bets with the same odds, using the nearest total values that are multiples of a quarter point: T1 = T - 0,25 and T2 = T + 0,25.

Below are simplified four scenarios for settlement of such "double" bets:

Example 1. Both "half" bets are won by the Customer.

In this case the payout (S) is equal to S=k*C.

Observed titles and indicators: Where k is the odds indicated in the line,.

C is the Customer's stake amount.

For calculating an "accumulator", the odds K = k are used.

Example 2. One "half" of the bet is won and the other is void.

In this case the payout (S) = (k + 1)/2*C.

And for calculating the "accumulator", the odds K=(k + 1)/2 will be applied.

Example 3. One "half" of the bet is void and the other is lost.

In this case S=0.5*C, and for calculating the "accumulator" the odds K=0.5 will be applied.

Example 4. Both bets are lost.

In this case S=0, and the odds for calculating the "accumulator" are K=0.

Double chance – place a bet that covers two of the three possible outcomes: home win or draw (1X), away win or draw (X2), or victory of one of the teams (12).

HT/FT (First Half / Full Time) – predict both the result in the first half and the final result. Extra time is not taken into account. In the app, outcomes are designated as: 1 (victory of the first team), 2 (victory of the second team) or X (draw). The first symbol indicates the result of the first half, and the second indicates the final result. The result of the second half alone does not matter. The desktop version uses team names and the word "Draw".

Example: If the match ends with a score of 1:1, and the first half was 1:0, then in the app the outcome "1/X" wins.

Correct score – predict the exact final score of the selected match.

Result and total – predict both the outcome of the match and whether the total will be more or less than the specified number.

Race to N goals – predict which team will score the Nth goal first.

Both teams to score – predict whether each team will score at least one goal during the match.

Own goals are counted in favor of the opposing team.

To take Nth place – predict the final position that the selected team will take.

Team to score Nth goal – predict which team will score the Nth goal in the match (for example, the 1st, 2nd, 3rd goal, etc.).

Comparison of half scoring – predict in which half both teams together will score the most goals.

Score difference – predict the exact margin by which one participant (team or individual player) will defeat another, measured in goals, points, time or any other relevant unit depending on the sport.

Markets observed: Exact number of runs scored in over No.; Exact number of runs off a delivery.

Only runs scored off the specified delivery are counted. Both legal and illegal deliveries (e.g., wides) are valid for settlement.

A wide is counted as a separate delivery. For example, an over with two wides will contain eight deliveries instead of six.

In first-class or Test matches, the entire match is counted; however, in the event of a drawn match, at least 200 overs must be bowled for bets to stand.

The calculation is based on the number of legal balls faced by the specified wicket, as recorded in the official scorecard.

Only completed legal deliveries count.

If a batsman retired hurt and was replaced by another player, this does not count as an out. The market will not be settled until the wicket falls.

If an innings ends naturally (declaration of closure or the team reaching its target), the final number of runs scored will be calculated only if it was possible to exceed the predicted totals. Otherwise, bets will be voided.

Any bet placed when there was no further play afterwards will be voided, unless the result had already been determined.

Markets and selections: If the game is interrupted by rain:.

Bets will be settled if the total has already been exceeded.

Bets will be voided if the result has not yet been determined and play does not resume.

Markets and selections: Wicket on delivery.

Will a wicket be taken on the specified delivery? Only a wicket officially credited on the specified delivery counts, regardless of whether the delivery is legal or illegal.

An illegal delivery (e.g., a wide ball) counts as a delivery in its own right.

Example: An over with 2 wides will consist of 8 deliveries, not 6 legal balls.

If the specified delivery is not bowled for any reason, bets on that delivery will be voided.

Markets and selections: Wicket or boundary on delivery.

Tower Rush

Will a wicket be taken or a boundary hit on the specified delivery? Only a wicket or boundary officially credited on the specified delivery counts, regardless of whether the delivery is legal or illegal.

Only genuine boundaries hit with the bat count — overthrows or runs for fours/sixes do not count.

Markets and selections: Extra run on delivery.

Will an extra run be scored on the specified delivery?

Wides, byes, leg byes, no-balls and penalty runs count as extra runs.

Only an extra run officially credited on the specified delivery counts, regardless of whether the delivery is legal or illegal.

An illegal ball (e.g., a wide) counts as a delivery in its own right.

Markets and selections: First contact on delivery.

What will be the first contact after the bowler bowls the specified ball?

Will it be the bat, the batsman, the wickets or something else (i.e., none of the above)?

If it is impossible to determine the first contact (e.g., simultaneous contact with bat and pad), bets will be voided.

The delivery does not have to be legal — illegal balls (e.g., a wide) count as deliveries.

An over with 2 wides will consist of 8 deliveries, not 6 legal ones.

Markets and selections: Boundary in over.

Only boundaries credited to the batsman's score count.

Byes, leg byes or wides do not count.

A boundary hit off a no-ball will count only if it is credited to the batsman's score.

The over must be fully bowled, unless the team is "All Out", declares the innings closed or reaches its target within that over, unless the result has already been determined.

Overthrows are not credited to the batsman's score and therefore do not count for this market.

Markets and selections: First scoring shot.

How many runs off the bat will be scored by the first scoring shot in the over?

1, 2, 3, 4, 6 or "Other".

Only runs credited to the batsman's score count.

If the first score in the over is a "wide", and then 4 is hit on the next delivery — the market will be settled as 4.

If a no-ball is bowled and runs are hit — only the value credited to the batsman's score counts.

There must be a delivery with runs credited to the batsman's score, otherwise bets will be voided.

Overthrows will count if they are credited to the batsman's score.

Tower Rush

Example: if the batsman runs 1 runs and 4 overthrow is made, he is credited with 5 runs, and the market will be settled as "Other".

Markets and selections: Boundary scorer.

Will the specified player hit the next boundary?

Only genuine boundaries hit with the bat count.

Overthrows, runs for fours and sixes do not count.

If no further boundaries are hit after the bet is placed, bets will be voided.

The specified player does not have to be on the field at the moment the next boundary is hit — it is sufficient that the subsequent boundary is hit.

Markets and selections: Next boundary: 4 or 6.

Will the next boundary be 4 or 6?

Overthrows, runs for fours and sixes do not count.

If no boundary is hit after the bet is placed, bets will be voided.

Markets and selections: Side of boundary.

Will the next boundary be hit on the off side or the leg side of the field?

Off side/leg side is determined by the batsman's position at the moment of the bowler's run-up.

Switch hits or reverse sweeps do not change the determination of the side.

If it is impossible to determine on which side the boundary was hit, bets will be voided.

Markets and selections: Type of extra run.

What will be the next type of extra run conceded by the bowling team?

Possible outcomes: wide, no-ball, leg bye, bye or penalty runs.

If no further extra runs are conceded, bets will be voided.

If several types of extra runs occur on the same delivery, the outcome is determined by the one that occurred chronologically first.

Example: If a no-ball is followed by a leg bye, the outcome will be a no-ball.

Markets and selections: Player who will concede an extra run.

Which player will be bowling when the next extra run is conceded?

Extra runs include: wide, no-ball, leg bye, bye or penalty runs.

Penalty runs will count only if they are credited to a specific delivery bowled by the specified bowler.

If they are not credited to a delivery, and penalty runs are the next extra run, bets will be voided.

If no further extra runs are conceded after the bet is placed, the bet will be voided.

Tower Rush

Markets and selections: Type of wide.

On which side of the field will the next Wide be bowled?

Options: off side, leg side or other (above head height).

The off side and leg side are determined by the batsman's position at the moment the bowler begins his run-up.

A switch hit or reverse hit does not affect this determination.

If it is impossible to determine the nature of the wide, the bet will be voided.

Markets and selections: Type of no-ball.

What will be the type of the next no-ball?

Markets and selections: Possible options:; - front foot over the delivery line (Front Foot); - another type of infringement (Other).

If no further no-balls occur after the bet is placed, the bet will be voided.

If it is impossible to determine whether the no-ball was of the Front Foot or Other type, the bet will be voided.

Markets and selections: Player who will take the catch.

What type of player will take the next catch?

Options: wicket-keeper, bowler or fielder.

Substitute fielders and "impact players" count for this market.

Settlement is based on the player's role at the moment of the catch.

Example: If a regular wicket-keeper takes a catch as a standard fielder, "Fielder" will be the winner.

If no catch is taken after the bet is placed, the bet will be voided.

Markets and selections: Number of balls at the moment of the catch.

How many legal balls will have been bowled in the innings at the moment of the next catch?

Wides and no-balls do not count towards the total number of balls.

Example: If two wides are bowled in the over, it still counts as 6 legal balls.

If no catch occurs after the bet is placed, the bet will be voided.

Which specified player will take the next catch?

Only the specified players count — if the catch is taken by a substitute fielder or an "impact player", bets will be voided.

Markets and selections: Boundaries on deliveries.

All specified balls in the over must be bowled, otherwise bets will be voided.

Only boundaries hit with the bat count — overthrows, runs for fours and extra runs do not count.

Tower Rush

The specified ball must be legal and completed, and a boundary must be hit off that ball for the bet to be considered a winner.

If there are additional deliveries (e.g., a wide followed by 4), this will count as a win only if the boundary was hit with the bat off a legal ball.

Markets and selections: Singles on deliveries.

A single is defined as a legal delivery off which 1 run off the bat is scored and credited to the batsman's score — extra runs do not count.

The specified ball must be legal and completed.

If a single follows a wide, the ball will not count as a single (2 run is credited).

If a dot ball follows a wide, it will not count as a single, since 1 runs were not scored off the bat and were not credited to the batsman's score.

Markets and selections: Dot balls on deliveries.

A dot ball is defined as a legal delivery off which no runs are scored, including extra runs.

If a dot ball follows a wide, the ball will not count as a dot ball — 1 runs will be credited to that ball.

Markets and selections: Total runs off deliveries No. to No.

The specified number of balls must be fully bowled, unless settlement has already been determined, otherwise bets will be voided.

If the innings reaches a natural conclusion within the specified number of balls (the team is "All Out" or the target is reached), bets remain valid and are settled on the final innings score.

Accumulated penalty runs will be included in the total for settlement if they were credited in time, but not if they are added retrospectively.

In the event of an interrupted match, bets will be voided unless settlement has already been determined.

Statistics provided by the official scorer(s) or the official website of the relevant competition or match will be used to settle bets.

If statistics from the official scorer(s) or official website are unavailable, or there is substantial evidence that the official score(s) or official website are incorrect, we will use independent evidence to support the settlement of bets.

In the absence of consistent, independent evidence or in the presence of substantial conflicting evidence, bets will be settled based on our own statistics.

Markets and selections: Team total runs in innings No.1, if they bat first.

Settlement is based on the number of runs scored by the team only if they bat first. Bets will be voided if the team bats second.

In limited-overs matches, the team must have the opportunity to bat at least 80% of the originally scheduled overs for bets to remain valid, unless settlement has already been determined — otherwise bets will be voided.

In First Class or Test matches, only the first innings of the specified team counts. At least 60 overs must be bowled in the innings, unless the team is "All Out" or has declared the innings closed.

Tower Rush

Penalty runs will be included in the final total for settlement if they were credited before the end of the innings, but not if they are added retrospectively.

If goals are scored in the match, the minutes at which they were scored divide the match time interval (from 0 to 90 minutes) into n + 1 goalless time intervals.

The length of goalless time intervals is determined as the difference between the minutes of the first goal and the start of the match, the minutes of consecutively scored goals and the minutes of the end of the match and the last goal — the start of the match is equal to 0 minutes.

If there are no goals in the match, this means that there was only one goalless time interval of 90 minutes in the match.

The minutes of goals scored in stoppage time added by the referee are the 45th or 90th minute.

Example 1: If the match in the main time ended with a score of 0:0, there was only 1 goalless time interval of 90 minutes in the match.

Example 2: If 2 goals were scored in the match: in the 23th and 62th minutes. In this case, there were only 3 goalless time intervals in the match: 23 minutes (23-0), 39 minutes (62-23) and 28 minutes (90-62).

Example 3: If 3 goals were scored in the match: in the 15th, 45th and 90th minutes. In this case, there were only 4 goalless time intervals in the match: 15 minutes (15-0), 30 minutes (45-15), 45 minutes (90-45) and an interval of 0 minutes (90-90).

The over must be played in full, unless the batting team is "All Out" or reaches its target within the over, unless the result has already been determined. Overthrows are not credited to the batsman's score and therefore are not counted for the purposes of this market. If a total of six runs is scored off a single delivery in the over, but it is not a six hit by the batsman, this is not counted for the purposes of this market.

Observable names and indicators: Wicket in the next over.

Before you begin participating in gambling, we want to make sure that you understand the importance of maintaining a healthy perspective. Gambling should not become an obsession, a primary source of income or a means of solving debt problems. We advise both current and potential players to set a budget specifically for gambling. It is very important to monitor how much money and time is spent on online games and to assess whether this is negatively affecting your life.

If you are experiencing financial or emotional difficulties, we recommend taking a break from gambling in order to step back and regain control. However, some people find it difficult to control themselves and are at risk of developing a gambling addiction. In such cases, more radical measures must be taken. One option is to request voluntary self-exclusion for a specific period or for an indefinite period.

As part of the responsible gaming policy, an internal system unique to our company is used to identify risky behavior. It identifies customers who frequently lose, are exposed to potential risks to their financial or mental health, or display aggressive or abusive behavior when communicating with our staff. Our customer support service contacts these individuals to assess the situation and discuss the possibility of activating self-limitation or self-exclusion options.

If you believe that you are at risk, we recommend that you contact us and request self-exclusion.

Observed names and metrics: RULES AND CONDITIONS; GENERAL RULES AND CONDITIONS.

Last update: 10 March 2026.

Before using this Website, as well as any games, products or services available on it, please carefully read these General Rules and Conditions.

Observed names and metrics: 1. DEFINITIONS.

1.1. In these Rules and Conditions (hereinafter – the "Rules" or "T&C"), capitalized words and expressions have the following meanings:

"T&C" – these General Rules and Conditions, which may be amended from time to time;

"Betting agreement" – the contractual relationship between the Provider and the Client, arising at the moment the Client places a bet through the Account on the Website and the Provider accepts such bet in accordance with these Rules;

"Provider" – a legal entity registered in Curaçao and holding a valid gaming license issued by the Curaçao Gaming Authority in accordance with the National Ordinance on Gambling (LOK), P.B. 2024, No. 157, with a registered legal address in Curaçao;

"Payment agent" – a legal entity that receives and remits certain payments for and on behalf of the Provider on the basis of a relevant agreement concluded between the Provider and the Payment agent. For the avoidance of doubt, the Provider is entitled, at its sole discretion, to use the services of several Payment agents;

"Website" – the website available at the domain name parimatch.com, including all games, products and services available on it, which, in the relationship between the Provider and the Client, is owned and operated by the Provider;

"Account" – an account with the Provider registered for the use of the Website and placing bets with the Provider;

"Client" – any natural person who is the addressee of the Provider's offer (respectively, the Provider is the offeror), who has accepted these Rules in the manner set out in section 2 of this document;

"Restricted jurisdictions" – the following countries and territories: Aruba, Australia, Bonaire, Curaçao, France, the Netherlands, Saba, Sint Eustatius, Sint Maarten, Singapore, Spain, the United Kingdom, the USA, as well as any jurisdiction identified by the Financial Action Task Force (FATF) as a high-risk country subject to a call for action (the so-called "FATF blacklist"), including, but not limited to, the Democratic People's Republic of Korea (DPRK), Iran and Myanmar.

1.2. All other terms used herein have their common meaning unless otherwise defined or implied by the context.

Observed names and metrics: 2. OFFER AND ACCEPTANCE.

2.1. These Rules constitute an offer to conclude a binding agreement on the terms set out therein, addressed by the Provider to any natural person who meets all of the following requirements:

(i) the person has reached the age of at least 18 years or the minimum age for participation in gambling established in the jurisdiction of such person's actual location (the higher age applies);

Observed names and metrics: (ii) the person is not actually located in Restricted jurisdictions;.

(iii) the person is not actually located in a territory where online gambling is prohibited;

(iv) the person is not a citizen and/or resident of states in respect of which sanctions have been imposed by the Curaçao Gaming Authority;

(v) the person is not a citizen and/or resident of states whose legislation does not comply with the established FATF international standards and/or states having gaps in the strategy for combating money laundering and terrorist financing according to the FATF report;

(vi) the person is not an employee, former employee or relative of an employee of the Provider or its affiliates.

2.2. By registering an Account with the Provider or otherwise gaining access to and using the Website, the offeror specified in clause 2.1 expresses acceptance of the above offer and these Rules, as a result of which they become a binding agreement between the Provider and such offeror, and from the moment of acceptance such person becomes a Client.

2.3. By accepting the said offer, the offeror confirms and guarantees its full compliance with the requirements listed in clause 2.1.

2.4. The agreement between the Provider and the Client under these Rules is valid subject to the Client's full and continuous compliance with the requirements listed in clause 2.1 (as well as additional requirements that may apply in accordance with these Rules). In the event of the Client's non-compliance with any of the said requirements, the agreement is deemed automatically suspended for the entire period of such non-compliance (except for the provisions of clause 2.6).

Observed names and metrics: 2.5. For the avoidance of doubt:; the availability of the Website in itself does not constitute an offer;.

The Provider expressly disclaims any liability and does not compensate for any losses, expenses or damage arising from the use of the Website by a person who does not meet the requirements of clause 2.1, and by using the Website, such person acknowledges this disclaimer;

any person using the Website confirms that they are solely responsible for compliance with all legal norms applicable to their activities under the laws of the territory where they are located; in addition, the person is solely responsible for fulfilling all tax obligations (e.g., income accounting, reporting and tax payment). In any case, the

Provider is not liable for any non-compliance or non-fulfillment by the person of any legal requirements or obligations.

2.6. In the event that a person who does not meet the requirements of clause 2.1 has registered an Account, such person irrevocably confirms that any funds deposited by them into the Account are considered a gift to the Provider, and the Provider is not obliged to return such funds unless it decides otherwise at its sole discretion. Moreover, any activity of such person on the Website is considered social gambling. In the event of a payout to such person, all such funds are considered erroneously transferred and remain the property of the Provider, and the said person is obliged to return them.

2.7. In the event of suspension of the agreement between the Provider and the Client under clause 2.4, the provisions of clause 2.6 apply for the entire period of such suspension.

2.8. The Client undertakes to interact politely with the Provider's support service, to avoid the use of profanity, threats or insults. Violations (including the use of foul language, threats or spam) may result in temporary suspension of access to support (from 1 day to 3 months) or restriction of the Account at the Provider's discretion.

Observed names and metrics: 2.9. The Client confirms that:.

(i) they are solely responsible for compliance with all applicable laws of their jurisdiction, including tax reporting and obligations to pay taxes on winnings;

(ii) they will not engage in collusion, use prohibited software or participate in activities aimed at manipulating game outcomes or obtaining an unfair advantage.

2.10. The Provider reserves the right to annul any betting agreement, refuse to fulfill obligations or withhold winnings if it is established that the Client:

is actually located in or is a citizen/resident of a Restricted jurisdiction; or

Observed names and metrics: is actually located in a jurisdiction where online gambling is prohibited; or.

is an employee, former employee or relative of an employee of the Provider or its affiliates.

Observed names and metrics: 3. GENERAL PROVISIONS.

3.1. The Website may be used exclusively for personal purposes and must not be used to obtain any commercial income.

3.2. The Client acknowledges that individual games, products or services on the Website may be governed by their own additional rules and conditions, including, but not limited to: additional restrictions regarding the territories for which such games, products or services are offered; additional requirements for the Client in addition to those specified in clause 2.1, etc. The Client hereby expressly agrees that commencing use of any such game, product or service means the Client's acceptance of the relevant additional rules and conditions, which become a binding additional agreement between the Provider and the Client applicable to the use of such game, product or service. As to their use, the relevant additional rules and conditions take precedence over these Rules.

3.3. These Rules may be unilaterally amended by the Provider at any time and for any reasons (or without them) at its sole discretion. The Provider will make commercially reasonable efforts to notify the Client of material changes by email. However, the obligation to regularly check these Rules for possible changes lies with the Client. Even without notification, the Client's continued use of the Website is deemed consent to all current changes.

3.4. These Rules are the basic framework for all promotions and bonuses offered by the Provider. Any special conditions of specific campaigns or promotions must comply with these General Rules and may not contradict them unless expressly stated otherwise. In the event of a conflict, these General Rules prevail unless otherwise provided. The Provider:

may at any time assign and novate any of its rights in favor of any third-party gambling operator (subject to applicable law), provided that such successor has all necessary licenses and permits and assumes the performance of all obligations;

may at its sole discretion refuse, modify or revoke any promotion, bonus or offer in the presence of suspicions of abuse, manipulation, "bonus hunting" or violation of these Rules, even if there is no direct prohibition. All decisions of the Provider on matters of promotion integrity are final.

3.5. Any person using the Website is deemed to have accepted all additional rules and policies available on the Website, including, but not limited to, the Privacy Policy and the Bonus Policy. In addition, as to the Privacy Policy, use of the Website is deemed consent to the processing of personal data to the extent established by said policy. Personal data is collected for account management, AML/KYC purposes and the provision of services, and is stored only for as long as necessary. The Client has the right to request access, correction or deletion of data by contacting support@parimatch.com.

3.6. The Provider uses the services of a Payment Agent, which may, at the Provider's sole discretion, act as a payment agent for any deposits, withdrawals or other settlements between the Provider and the Client. For the avoidance of doubt, any provision of these Rules on settlements between the Provider and the Client implies the Provider's right at any time and for any period to appoint a Payment Agent to receive or transfer any amounts due between the parties on behalf of the Provider. By accepting these Rules, the Client is deemed to have irrevocably agreed to this right of the Provider and undertakes to recognize such payments through the Payment Agent as correct in the same way as if they had been made directly between the Client and the Provider.

3.7. The Provider reserves the right to suspend the withdrawal of funds and/or freeze the Client's Account until all necessary verification, KYC and AML procedures have been successfully completed. The Provider may, at its sole discretion, request documents or information, including, but not limited to, confirmation of identity, place of residence, source of income and funds, ownership of payment accounts, or video verification. Until these procedures are completed, the withdrawal of funds may be restricted.

3.7.1. The Provider reserves the right at any time to request additional documents or information from the Client, regardless of whether the Client has previously undergone initial Account verification.

3.8. For the purposes of calculating time periods, the parties agree that all time periods under these Rules are calculated in the UTC time zone.

Observed names and indicators: 4. CLIENT ACCOUNT.

4.1. The Client may have only one Account. For the purposes of this clause, at the Provider's discretion, Accounts of different actual persons who are members of the same family and/or live in the same household, use the same email address and/or phone number, and/or payment account, and/or IP address, and/or shared device, may be considered as Accounts of the same person.

Observed names and indicators: 4.2. The Client is prohibited from:; (i) creating more than one Account;; (ii) providing access to their Account to third parties;; (iii) creating and/or using an Account on behalf of another person;.

(iv) creating and/or using an Account if the Client is an employee, former employee or relative of an employee of the Provider or its affiliates.

4.3. If the Client has in fact withdrawn any funds in violation of the prohibitions described in clause 4.2, all such funds are deemed to have been transferred erroneously and remain the property of the Provider, and the Client is obliged to return them. The Provider reserves the right to withhold such amounts from the Client's Account.

4.4. The Client is obliged to ensure that accurate data is specified in the Account (full name, phone number, date of birth, etc.) and to update the data in the Account settings in a timely manner when it changes. Some changes may require additional verification.

4.5. The Provider has the right at any time, at its sole discretion, to request documents and information from the Client to confirm their ownership and lawful use of the Account, as well as for the purposes of combating fraud and money laundering (AML). Such documents may include, in particular, but not limited to:

Observed names and indicators: a photograph of the Client's identity document;; a photograph or screenshot of the Client's payment instrument or account;.

a photograph or screenshot of a document confirming the Client's place of residence;

Observed names and indicators: a selfie of the Client with an identity document;; confirmation of the Client's source of income;; confirmation of the origin of funds;.

a selfie of the Client with an inscription (example: "Hello [Provider's trade name]") and/or while fulfilling special conditions (winking, turning the head/arm, etc.).

The above list is not exhaustive. The Provider has the right to request any other reasonable documents or information for the stated purposes.

4.6. All data in the provided documents must fully match the information specified by the Client in the Account. The documents must be valid, and the photograph of the holder, date of birth and date of issue/expiry must be clearly visible. When the Provider requests a photograph of the Client's payment card, the Client is obliged to conceal the three-digit CVV/CVC code. The Provider never requests the CVV/CVC code. The Provider may establish additional reasonable requirements for documents (validity period, image quality, language, translation, etc.). In the event of a change of data after the creation of the Account, the Provider has the right to request documents both "before" and "after" the changes, with confirmation of the fact of such changes. The Provider may also use other verification methods (for example, calls or video communication). Verification timelines are set individually; on average, consideration of each Client response takes up to five (5) days.

4.6.1. In case of suspected fraud, the Provider may require video verification of the Client's identity. Refusal to comply with the requirement within the specified period may lead to blocking of the Account and confiscation of funds.

4.6.2. If the Client fails to provide the requested verification documents or information within fourteen (14) calendar days from the moment of the Provider's request (sent by email, phone or via remote video verification), the Provider reserves the right to suspend the Account, restrict further gameplay and refuse to process withdrawals of funds until the Customer Due Diligence (CDD) procedure is completed. If the Client continues to fail to comply with the requirements or refuses to comply with them, the Provider may terminate the Account and return the remaining net deposit balance to the original payment source, provided there are no suspicions of illegal activity.

In the event of the Client's refusal or evasion of the verification procedure, as well as the provision of third-party, forged or edited (including using software and graphic editors) documents, the Provider has the right to declare all

bets made by the Client invalid, annul all winnings and return to the Client only the amount of deposits made.

At its discretion, the Provider may instead annul all bets and return to the Client all funds previously transferred by them to the Account.

4.7. In case of suspicion of suspicious activity and/or fraud, the Provider has the right to suspend the possibility of withdrawing funds from the Client's Account until their verification is completed. Until the full initial verification of the Account data, the Provider may, at its discretion, suspend the possibility of withdrawing funds. In addition, when launching additional or repeat verification under this section, the Provider may also suspend withdrawals until the verification is completed.

4.8. Violation by the Client of any of the above provisions is considered a material breach of these Rules. In this case, the Provider has the right to withhold all funds in the Account as a penalty (without prejudice to other remedies at law and under these Rules), as well as to immediately terminate these Rules and close the Client's access to the Account and the Website.

4.9. The Client is solely responsible for the security of the data for accessing the Account. The Client agrees that if a third party has gained access to the Account as a result of the Client's failure to comply with security measures, any activity of such person is considered the Client's activity, and the Provider is not liable for the Client's losses. Such cases may be considered as providing access to a third party, which is a violation of these Rules.

4.10. The Provider reserves the right to terminate these Rules and close the Client's Account with the return of the remaining funds (less withdrawal fees, if applicable) at its sole discretion, without giving reasons and without prior notice.

4.11. The Provider may declare betting agreements invalid if it establishes that:

a single Client has several Accounts (multi-accounts), including new accounts under a different name;

Observed names and indicators: a group of Clients acts in collusion to circumvent restrictions;; the Client uses other persons' data to register new Accounts;.

the Client carries out fraudulent or unauthorized transactions (for example, with "old" payment instruments or chargebacks);

the Client acts in collusion with third parties (including other gaming or payment providers) to obtain unfair winnings or exceed betting limits;

Observed names and indicators: the Client uses automated betting software;; the Account is used for arbitrage rather than for real betting;.

loyalty programs are used in violation.

4.12. The Bookmaker has lost trust in the Client. If the Client cannot explain the history of bets during a check of the honesty of a concluded bet — on what principles it was made, what the Client was guided by when placing the bet, why this event interested them, or answer any other questions related to the bet that the Bookmaker network deems necessary to ask the Client — and if the answers provided by the Client leave doubts about the honesty of the concluded bet, this entails the loss of the Bookmaker's trust in this Client. The foregoing may be confirmed by the size, volume and structure of bets with the Bookmaker. The decision made by the Bookmaker's management on any of the listed issues (if any) is final. In the event that for any reason the Client has a negative balance, the Bookmaker reserves the right to take this into account before making any payouts to this Client.

Observed names and indicators: 5. USE OF THE WEBSITE.

5.1. The Client, subject to continuous compliance with all provisions of these Rules (including the provisions on verification), has the right to use their Account to place bets with the Provider via the Website. The Client acknowledges (except for the provisions of clause 2.6) that the Provider provides real-money games via the Website and, wishing to place a bet, the Client must use real money.

5.2. In order to be able to place bets, the Client must top up their Account with real money in accordance with section 6. The Client expressly confirms that the Provider is not a financial institution and no interest is accrued on funds deposited to the Account.

5.3. The Client hereby authorizes the Provider to debit funds from the Client's Account as payment for bets placed by the Client.

Observed names and indicators: 5.4. The Client expressly confirms and understands that:.

(i) by using the Website, the Client participates in real-money games, and the Provider does not guarantee winnings;

(ii) use of the Website may lead to financial losses, and the Provider is not liable for such losses.

5.5. The Provider reserves the right, at its sole discretion, at any time to remove any game, product or service from the Website.

5.6. If the Client has not deposited (and has not withdrawn) funds to/from the Account or has not placed bets for twelve (12) consecutive months, the Provider has the right to charge a monthly administrative fee in the amount of 5 (five) US dollars or the equivalent in another currency (or an amount equal to the current Account balance, if less). The Client hereby authorizes the Provider to debit the specified fee until the Account balance is exhausted (in which case the Provider has the right to close the Account and terminate these Rules immediately) or until the Client makes a new deposit, withdraws funds or places bets (whichever occurs first). The Provider will notify the Client by email at least 24 hours before applying the administrative fee to an inactive Account. The Client has the right to appeal the closure of the Account by contacting support@parimatch.com within 30 days from the moment of notification.

5.7. The Provider has the right to set a maximum amount for an individual bet for the Client, including different limits for different games and products on the Website, as well as different limits for the same game or product depending on the use of special offers (for example, bonus offers). The maximum bet amount may vary depending on the sport, competition, event, market or type of bet and may change at any time without prior notice.

The Provider has the right to set individual maximum limits for individual events or Client Accounts, as well as to introduce and remove special restrictions without notice and without giving reasons.

5.8. Unless otherwise approved by the Provider or provided for by these Rules, the following general limits and restrictions apply:

Observed names and indicators: (i) the size of a single bet cannot be less than 1 (one) US dollar;.

(ii) the size of a single win, including jackpots, cannot exceed 1 000 000 (one million) US dollars or the equivalent in another currency;

(iii) any win may be subject to verification and confirmation by the game administrator before being credited to the Client's Account balance. The Provider reserves the right to apply such verification to winnings exceeding a certain amount set by the Provider at its sole discretion.

Tower Rush

5.8.1. Once a bet has been placed and confirmed by the Provider's server (including the display of a receipt on the Website with the bet number), the Client cannot change, cancel or revoke such bet.

5.9. If the Client wishes to place a bet the amount of which exceeds the established maximum for the given event or type of bet, they have the right to arrange it as a "VIP bet", subject to the following conditions:

(i) the Client's Account must contain an amount exceeding the established maximum bet limit;

(ii) the minimum amount of a "VIP bet" is the equivalent of 100 (one hundred) US dollars in the Account currency;

Observed names and indicators: (iii) a "VIP bet" may be placed as a single, accumulator or system bet;; (iv) "VIP bets" are not accepted on LIVE events;; (v) "VIP bets" are not accepted via the express line;.

(vi) a request for a "VIP bet" must be sent no later than 20 minutes before the start of the event;

Subject to all the above conditions, a "VIP bet" is reviewed by the Provider for the possibility of accepting it. A decision is made within 15 minutes — the bet is either accepted in full or rejected. The progress of the review and the result are displayed on the "Account History" page.

If a "VIP bet" is rejected, the Client is entitled to place a regular bet within the established maximum.

The maximum payout on "VIP bets" is the equivalent of 1 000 000 (one million) US dollars.

5.10. In the event of any inconsistency or discrepancy between the English version of these Rules or any other document of the Provider and a version in another language, the English version shall prevail and shall be deemed the original and controlling version.

Observed names and indicators: 6. DEPOSITS.

6.1. Subject to the other provisions of this section, the Client may top up the Account using the payment methods available on the "Deposit" page of the Website at the time of the transaction.

6.2. The Account may be topped up only using payment accounts (e.g. bank card, bank account, e-wallet, etc.) belonging to the Client and registered (issued, opened) in his name. The Provider rejects all payments from third-party accounts. For the avoidance of doubt: a deposit cannot be made from a corporate card or a similar account. If such third-party payments have been credited to the Account, the Client must immediately notify the Provider, and the Provider shall debit the said funds from the Client's Account. In the event of failure to notify, the Provider is entitled, in addition to debiting, to withhold as a penalty the amount of such third-party payments together with the amount of winnings received after the deposit of these funds.

6.3. The Provider is entitled to set a minimum deposit amount (the amount permitted to be deposited via a single payment transaction) and to change it at any time. The current minimum deposit amount is always displayed on the "Deposit" page of the Website. If the minimum deposit amount is not indicated on the said page, it shall be deemed to be 5 (five) US dollars; however, higher limits may be set individually by the relevant payment providers in accordance with their rules and payment processing requirements. The maximum deposit amount per transaction may be limited by the provider of the payment method chosen by the Client.

6.4. The Provider does not provide currency exchange services. The internal operating currency of the Website is US dollars (USD), as well as any other currencies available on the Website at the time of or after the Client's registration. Accordingly, when topping up the Client's Account, multiple currency conversions may occur, and the Provider is not liable for any losses related thereto.

6.5. Deposits and withdrawals may be accompanied by fees depending on the chosen payment method. The current fee structure is displayed on the "Deposit" and "Withdrawal" pages of the Website. Additional fees may be charged by the Client's issuing bank, payment system, e-wallet or other payment service providers; such fees are beyond the control and responsibility of the Provider.

6.6. The timeframes for crediting deposits depend on the chosen payment method and may change. The current timeframes for each method are always displayed in the Client's Account at the time of making the deposit and take precedence over previously indicated information.

Observed names and indicators: 7. WITHDRAWAL OF FUNDS.

7.1. Subject to the other provisions of this section, the Client may withdraw funds from the Account using the payment methods available on the "Withdrawal" page of the Website at the time of the transaction.

7.1.1. Withdrawal of funds from the Account is available only after the Client has made at least one successful deposit. Clients who have not yet made their first deposit may participate in individual promotions or no-deposit offers, however, withdrawal of any funds (including winnings received under such offers) becomes available only after the first deposit has been made and confirmed.

7.2. The Client confirms and agrees that, for the purposes of the Provider's compliance with AML requirements, when making a deposit the Client is not entitled to withdraw the said deposit until the wagering conditions defined below have been met (the Provider will reject such withdrawal until these conditions are met):

7.2.1. For the purposes of clause 7.2 (including all sub-clauses), unless expressly stated otherwise, the deposit amount includes the deposit itself and all possible winnings from its use (including winnings from previous bets using this deposit).

7.2.2. In order to withdraw the relevant deposit, the Client must, using it, place bets in a total amount equal to one hundred percent (100%) of the amount of this deposit (winnings, settled bets with odds of 1 and via Cashout are not taken into account). After the wagering conditions have been met, the Client will be able to withdraw the relevant deposit amount.

7.2.3. If, after the wagering conditions for a deposit have been met, the Client decides to top up the Account with a new deposit before withdrawing it, such new deposit is also subject to the same wagering requirements. At the same time, the Client is entitled to withdraw previous deposits for which the wagering conditions have been met.

7.2.4. If, before the wagering conditions for any deposit have been met, the Client decides to top up the Account with a new deposit amount, such new amount is also subject to the same wagering requirements before it becomes available for withdrawal. For the avoidance of doubt, the fulfilment of wagering conditions is considered separately for each deposit in the order in which they were made (on a "first in, first out" basis), and no bet is counted simultaneously towards the fulfilment of wagering conditions for more than one deposit. A fee may be charged for the withdrawal of funds; where applied, the exact fee amount is displayed in the Client's Account at the time of submitting the withdrawal request.

7.2.5. The Client agrees that any winnings from bets placed using a specific deposit are included in the amount of such deposit and may be withdrawn only after the wagering requirements for it have been met.

7.2.6. For the purposes of this clause 7.2 (including all sub-clauses), deposits are used in the following order:

(i) first, deposits with unmet wagering requirements — in the order in which they were made (from earliest to latest);

(ii) deposits with met wagering requirements (all of them are treated as a single deposit) are used only after there are no deposits specified in clause (i) remaining.

7.2.7. The Provider may, but is not obliged to, permit the Client to withdraw funds before the wagering conditions have been met for an additional fee (to cover the Provider's AML risks) of at least 5% of the deposit amount.

7.3. Withdrawal of funds may be made only to payment accounts (e.g. bank card, account, e-wallet, etc.) belonging to the Client and registered in his name. The Provider rejects all withdrawals to third-party accounts. For the avoidance of doubt: a withdrawal cannot be made to a corporate card or a similar account. Furthermore, a withdrawal may be made only to the payment account that was previously used to make a deposit. If for any reason the Client cannot use this account (e.g. it has expired), then in order to withdraw funds to a new account, the Client must first top up the Account with at least the minimum deposit amount from this new account. Only after that may it be used for withdrawal.

7.4. The Provider is entitled to set a minimum withdrawal amount (the minimum amount permitted to be withdrawn via a single payment transaction) and to change it at any time. The current minimum withdrawal amount is always displayed on the "Withdrawal" page of the Website. If the minimum withdrawal amount is not indicated on the said page, it shall be deemed that the applicable minimum withdrawal amount is determined individually by the relevant payment provider and may vary depending on the method used. The maximum withdrawal amount per transaction may be limited by the provider of the payment method chosen by the Client; in such case, the withdrawal is made in parts. In addition, the Client agrees that the Provider, based on internal operational specifics, is entitled at its discretion to split any withdrawal operation into several (equal or unequal) transactions.

7.5. The Provider does not provide currency exchange services. The internal operating currencies of the Website are USD and EUR. Accordingly, when withdrawing funds, multiple currency conversions may occur, and the Provider is not liable for any losses related thereto.

Observed names and indicators: 7.6. The Client agrees that:.

(i) banks and other financial institutions, as well as other payment providers (regardless of country), may block or reject transactions at their own discretion, and the Provider is not liable for this;

Observed names and indicators: (ii) some withdrawal methods may not support certain currencies;.

7.7. The processing and crediting timeframes for withdrawals depend on the chosen payment method and banking partners and may change without prior notice. The current timeframes for a specific method are always displayed in the Client's Account at the time of submitting the withdrawal request and are deemed effective at the time of the transaction.

Observed names and indicators: 8. REFUNDS.

8.1. All payments made on the Website are final and non-refundable.

8.2. Deposit refund requests are considered in accordance with the refund policies of the relevant payment provider. The Provider does not process deposit refunds, except in cases of proven fraud, participation in gambling by minors or other illegal actions of the Client. In such cases, the remaining funds may be transferred to the affected parties or to charitable organisations at the Provider's discretion.

8.3. When processing a refund, the Provider cancels all relevant bonuses and winnings associated with the refunded amount.

8.4. If a transaction is deemed risky by the Provider or the payment provider for security or legal reasons, the Provider will initiate the return of such transactions back to the relevant payment account and will notify all necessary authorities and parties.

8.5. All expenses arising from the refund procedure are borne by the Client.

8.6. The Client acknowledges that all payment operations are processed by external financial institutions and/or payment providers. The Provider does not control such processes. Once a transaction has been successfully processed and credited to the Client's Account, it is deemed valid, final and non-refundable.

8.7. The Provider is not liable for any indirect or incidental losses related to refunds. The Client fully bears all expenses arising from refund procedures.

Observed names and indicators: 9. ANTI-FRAUD POLICY.

9.1. The Provider adheres to a strict anti-fraud policy and applies various tools and methods to counter fraud. In particular (without limitation to other possible cases), the following are considered fraudulent actions:

Observed names and indicators: "arbitrage" or other forms of advantage play;.

other forms of fraud or unfair play.

9.1.1. In the event of suspected financial fraud, including but not limited to unauthorised use of payment means ("carding"), manipulation of game outcomes or other fraudulent activity, the Provider reserves the right to:

In the event that fraud is confirmed, the Provider is entitled to withhold all funds in the Client's Account as a penalty. All payouts of winnings obtained as a result of fraudulent actions are deemed erroneous and remain the property of the Provider, and the Client is obliged to return them. The Provider also reserves the right to notify the competent regulatory authorities of the Client's fraudulent actions.

9.3. If the Client himself did not commit and was not aware of the fraudulent activity of other persons, but participated in a game whose result was distorted as a result of such activity, all results of such game are deemed invalid. In this case, all of the Client's winnings are annulled, and the stake amounts are returned.

9.4. In all cases, the Provider will make commercially reasonable efforts to inform the Client of its decisions, the reasons for them and the consequences for the Client.

9.5. The Provider reserves the right to withhold any payments in the event of suspicions or evidence of manipulation of the Website. Criminal proceedings may be initiated against persons who manipulated the Website or attempted to do so.

9.6. If the Client becomes aware of possible errors or incompleteness on the Website, they undertake not to use them for personal purposes and to notify the Provider immediately. In the event of a breach of this obligation, the Client bears full responsibility for all of the Provider's costs associated with the error or incompleteness and the failure to notify.

9.9. Integrity violations, match-fixing and conflicts of interest.

9.9.1. The Provider reserves the right to declare a concluded Betting Agreement invalid (including one concluded before or after the start of the event), to refuse to perform obligations under such agreement (including refusal to pay any winnings) and/or to refuse to return any placed stake if:

(a) the Provider becomes aware that the Betting Agreement, bet or winnings are connected with the outcome of an event:

Observed names and indicators: (i) in which the Client participates as an athlete; or.

(ii) in which a sports club participates, of which the Client is the owner, coach, official or player; or

(iii) on which the Betting Agreement was concluded by the Client on behalf of a person specified in subparagraphs (i) or (ii).

(b) the Provider has reasonable suspicions of the existence of unfair sports conduct during the event or of the influence of unfair sports conduct on the outcome of the event in respect of which the Betting Agreement was concluded. In this case, the Provider has the right to declare the bet (in whole or in part) questionable, which entails suspension of the settlement and payment of winnings on such bet until the completion of all investigations initiated by the Provider or other authorised persons in connection with suspicions of unfair sports conduct.

9.9.2. If an investigation confirms the fact of unfair sports conduct during the event or the influence of unfair sports conduct on the outcome of the event, the Provider has the right to refuse to return the stake and pay winnings on the relevant bet, as well as to contact law enforcement authorities to verify the Client's involvement and to hold them accountable in accordance with the law.

9.9.3. If, within 1095 (one thousand and ninety-five) days from the moment a bet (or part thereof) is declared questionable, the relevant investigations are not completed, the Provider, upon the Client's written request, shall declare the questionable bet invalid (void) and refund the stake amount to the Client.

Observed names and indicators: 9.9.4. For the purposes of this clause:.

(a) Unfair sports conduct includes (but is not limited to) situations where the outcome of an event is fully or partially predetermined as a result of collusion between its participants and/or with third parties; where a match-fixing has occurred within the meaning of the rules of the relevant competition; or where unlawful influence has been exerted on the result of an official sports competition or other event.

(b) A suspicion originating from a national, international or foreign organisation specialising in detecting, preventing or countering match-fixing or other result manipulation (for example, Tennis Integrity Unit (TIU), Early Warning System GmbH (EWS), FederBet AISBL) is considered reasonable, in particular.

Observed names and indicators: 10. RESPONSIBLE GAMING.

10.1. The Client acknowledges that gambling via the Website should be regarded solely as a form of entertainment and may not be used as a source of income or a means of paying off debts.

10.2. In order to promote responsible gambling, the Provider, at the Client's request, applies individual limits or excludes the Client from access to the Website.

10.3. If the Client wishes to limit their use of the Website, they must send the Provider a written notice specifying the type of limit (see below), the desired duration of its effect and the parameters of the limit (for example, the maximum permissible amount of losses over a certain period).

10.4. At the Client's request, the Provider will apply the following personal limits within 24 hours (those specified by the Client):

Deposit limit — a restriction on the total amount the Client may deposit over the selected period (day, week, month). If the limit is reached, the ability to top up is blocked until the end of the period;

Loss limit — a restriction on the total amount of losses over the selected period (day, week, month). The limit is calculated based on the Client's deposits, excluding winnings. If the Account balance has decreased by the amount of the limit, the ability to place bets is blocked until the end of the period;

Betting limit — a restriction on the total amount of bets (regardless of outcome) over the selected period (day, week, month). When the limit is reached, the ability to place bets is blocked until the end of the period;

Session limit — a restriction on the total duration of use of the Website over the selected period (day, week, month). When the duration limit is reached, access to games is blocked until the end of the period;

"Cooling-off period" limit — blocking of the ability to top up and place bets for a certain period. At the same time, the Client may log into the Account and withdraw funds (subject to the general rules on withdrawals);

Self-exclusion limit — blocking of the ability to top up, place bets, withdraw funds and log into the Account for the requested period.

10.5. The Client has the right at any time to request that the Provider establish stricter limits (they are applied under clause 10.4) or, conversely, to relax or cancel previously established restrictions. In the latter case, the Provider considers the request individually and has the right to approve or reject it at its discretion.

Tower Rush

10.6. After the limit period expires, the Client may again use the Website without the restrictions provided for in this section, subject to the general provisions of these Rules.

10.7. All requests for the application of responsible gaming limits or self-exclusion are processed within 24 hours from the moment they are received.

Observed names and indicators: 11. COMPLAINTS.

11.1. The Client may contact the Provider's support service in accordance with the instructions posted on the "Customer Support" page of the Website, or at the email address support@parimatch.com, to submit a complaint related to the use of the Website. A complaint is considered by the Provider only if it is submitted within six (6) months from the date of the relevant gaming session. All monetary transactions are processed by independent third-party payment providers under their own terms and conditions. The Provider will make all reasonable efforts to assist, but cannot guarantee the speed or outcome of an investigation conducted by such providers and is not responsible for delays or actions beyond its control.

11.2. The support service will make every effort to review the complaint promptly and, if the matter cannot be resolved immediately, will refer it to the Provider's managers for consideration.

11.3. The Client has the right to a transparent, fair and efficient complaint resolution process. In addition to the internal complaint review procedure, the Client always has free access to an independent alternative dispute resolution (ADR) procedure. Full information is set out in the Player Complaints Policy, permanently available on the Website at In the event of any conflict between this section and that Policy, the Policy shall prevail.

11.4. If the Client abuses their right to submit complaints (for example, spams, submits numerous unfounded complaints, insults the Provider's employees, etc.), the Provider has the right to restrict the ability to submit complaints or to ignore all complaints received from the Client. The Client agrees that the Provider has the right to record all communications with them.

11.5. In the event of a dispute, the Client agrees that the Provider's server logs and records are reliable evidence in determining the outcome of any claim. In the event of a conflict between the game result displayed on the Client's screen and that actually recorded by the server, the server record shall prevail. The Client agrees and confirms that the Provider's records are proper evidence of the terms and circumstances of the Client's participation in the relevant game and its results.

11.6. Escalation to ADR.

If the Client is not satisfied with the final decision, they may refer the dispute free of charge to an independent ADR process subject to the following conditions:

(i) the Client has completed the internal complaint review procedure described above;

(ii) the Client submits a request to ADR before going to court; the ADR decision is binding on the Client;

(iii) the Client's complaint meets the eligibility criteria, including a minimum dispute amount of 2 000 euros.

11.7. The Client agrees that any communication from the Provider is deemed proper if it is sent to the contact details specified by the Client in the Account. All such messages are deemed delivered at the time of sending.

Observed names and indicators: 12. MISCELLANEOUS PROVISIONS.

12.1. The Provider is not responsible for hardware or software failures, unstable or lost internet connections or any other technical errors that may limit access to the Website or prevent its continuous use.

12.1.1. Although the Provider makes every effort to ensure the accuracy of the information displayed on the Website, all data concerning the current course of events (including real-time results, statistics and time) is provided for informational purposes only. The Provider is not responsible for possible inaccuracies. Clients are advised to use additional sources of information. In the event of discrepancies between the English version of these Rules and Terms & Conditions (T&C) and their translation, the English version shall prevail.

12.1.2. The dates and times of events displayed on the Website are provided for informational purposes only. An incorrectly displayed date or time is not grounds for voiding a bet. All bets placed before the actual start of the event remain valid. For the purposes of settling results, the actual start time of the event, as determined by the official organiser or its authoritative sources, shall prevail.

12.1.3. The Provider is not responsible for the accuracy of the translation of player names, team names or venues of events. Minor discrepancies in spelling or translation do not affect the validity of bets.

12.2. If a bet was accepted or a payment was made as a result of an error by the Provider, it has the right to cancel all related bets. In such case, erroneous winnings are debited from the Client's Account, and the stake amounts are returned.

12.3. If the Provider erroneously credits the Client's Account with winnings that do not belong to the Client (due to a technical error, incorrect odds, human factor, etc.), such amounts remain the property of the Provider and are subject to debiting. If the Client has managed to withdraw the said funds before the error was identified, they are considered a debt of the Client to the Provider. In the event of an erroneous credit, the Client is obliged to notify the Provider immediately.

Observed names and indicators: 12.4. The Provider, its directors, employees, partners and contractors:.

do not guarantee that the software or the Website meet the Client's purposes;

do not guarantee that the software or the Website are free of errors;

do not guarantee uninterrupted access to the Website and/or games.

12.4.1. To the maximum extent permitted by law, the Provider is not liable for direct, indirect, incidental, special, punitive, exemplary or other damages, regardless of the legal nature of the claims (contract, tort, negligence, etc.), and regardless of the foreseeability of such damages arising in connection with access to the Website, use or inability to use it.

12.4.2. Without prejudice to the foregoing, the Provider's total liability to the Client for any claim arising from these Rules or the Website may not exceed the lesser of the following amounts: (i) the total volume of the Client's bets over the three (3) months preceding the incident; or (ii) 2 000 (two thousand) euros.

12.4.3. In exceptional cases, if the Client's confirmed and documented damage exceeds the standard limit (by no more than three times), the Provider has the right, at its own discretion, to consider compensation in an amount not exceeding three times the limit. This provision does not constitute an acknowledgement of liability beyond the limit and does not constitute an obligation to compensate.

12.4.4. The Provider reserves the right to reject any claim regardless of the amount if it is established that the Client has violated these Rules (for example, multi-accounting, fraud, bonus abuse, provision of false data during AML/KYC). In such cases, the Provider has the right to withhold or cancel payments, void winnings and/or permanently restrict the Client's access to the platform.

12.4.5. All claims must be supported by proper and verifiable documents. The Provider has the right to request such documents at any stage of the review. The Client's refusal to provide documents within 7 (seven) days may result in the rejection or reduction of the claim amount.

12.5. The Client agrees to fully indemnify and hold harmless the Provider, its directors, employees, partners and contractors from any liability, claims, expenses or losses arising in connection with the Client's violation of these Rules.

12.6. The Client acknowledges that the final decision on the existence of a violation of the Rules and the consequences (including blocking or suspension of access) is made by the Provider.

12.7. In the event of termination of the agreement due to a violation of these Rules, the offer (section 2) is deemed not to have been addressed to such Client, and they are not entitled to create a new Account.

12.8. Assignment of the Client's obligations under this agreement is not permitted. The Client is not entitled to transfer their rights and obligations under this agreement to third parties.

12.9. The Client's Account may be closed at their request. To do so, they must contact the support service with the relevant notice. Before closing the Account, the Provider conducts a check to ensure that the request came from the Client.

12.10. Regardless of the Provider's right to close the Account in the event of a violation of the Rules or legislation, it reserves the right to close the Account at its own discretion without giving reasons, by sending the Client prior notice. Before closure (except in cases of violation), the Client is obliged to withdraw all funds from the balance (subject to: (1) withdrawal rules and limits; (2) fees; (3) wagering requirements).

12.11. In the event of closure of the Account for violation of these Rules, the Client is prohibited from creating new Accounts and using the Website.

12.12. These Rules are governed by and construed in accordance with the laws of Curaçao. All disputes are subject to the exclusive jurisdiction of the courts of Curaçao.

12.13. If any provision of these Rules is found to be unlawful or invalid, it shall be deemed severable, and the remaining provisions shall remain valid.

Observed names and indicators: 13. INTELLECTUAL PROPERTY.

13.1. The Provider is the sole owner of its trademarks, logos, software and Website content. Unauthorised use, reproduction or distribution of such intellectual property is strictly prohibited and may result in legal prosecution.

13.2. The Client undertakes not to use automated or mechanical devices to access the Website content or reproduce it without the prior written consent of the Provider.

Observed names and indicators: BET SETTLEMENT AND DISPUTED RESULTS.

14.1. The Provider announces official results on the basis of official records and verified sources after the completion of the event. In the event of discrepancies between sources or obvious errors, the final decision on bet settlement is made by the Provider. Actions for bet settlement in cases of integrity violations are governed by clause 9.9 of these Rules.

14.2. If there are grounds to believe that a bet was placed after the outcome of the event became known, or after a team or player obtained a significant advantage (for example, a goal scored, a player sent off or a substitution), the Provider reserves the right to declare such bet invalid and return the stake amount.

14.3. All data concerning real-time events (for example, results, time, statistics) is provided for informational purposes only. The Provider is not responsible for possible inaccuracies and recommends using official sources of information.

14.4. For live bets, the Provider settles on the basis of its own data on the actual course of the game. In the event of loss or incomplete transmission of data, events may be settled at odds of 1.00.

14.5. Any claim concerning disputed results must be submitted within ten (10) days from the moment of the official completion of the event. After this period, claims are not accepted. In the event of disagreements or disputes, the final decision remains with the Provider.

14.6. The Provider reserves the right to declare a betting agreement invalid (including one concluded before or after the start of the event), to refuse to pay any winnings and/or not to return the stake if it is established that the event was subject to match-fixing, manipulation or other integrity violations.

In the event that the Client did not participate in the manipulations and did not benefit from them, but the outcome of the bet was distorted, the Provider has the right to declare such bet invalid and return the stake amount. The Provider's decision on such matters is final.
