Subject reference: parameters and applicability — 22. Demo

ID	Attribute	Value, conditions and result
22-01	Owner of the demo product	Galaxsys — owner of the official demo; the operator launch and the editorial profile are accounted for separately.
22-02	Balance currency	FUN.
22-03	Registration required	Official demo route without a cash account; an operator may have its own entry.
22-04	Deposit required	No deposit is needed for the FUN demo.

ID	Attribute	Value, conditions and result
22-05	Same settings available	Original Build/Cashout and three bonus floors; these are not all features of the sequel.
22-06	Balance reset rule	A new demo session receives a separate starting balance; the reset is recorded as a separate adjustment.
22-07	Cash withdrawal possible	There is no withdrawal of FUN into money.
22-08	Match of mathematical configuration	Demo TR-PK-DEMO and cash TR-PK-97 are separate configurations; the selected 97% are approved for each profile; implementations are accounted for separately.
22-09	Mobile access	Google Pixel 10a / Android 16; iPhone 16 / iOS 26.5.
22-10	Switching to cash mode	I opened cash mode in the operator account; I did not transfer FUN as a deposit.
22-11	Demo episode ID	TR-PK-DEMO-01.
22-12	Demo balance currency	FUN, a virtual unit.
22-13	Initial demo balance	2200.00 FUN.
22-14	Demo balance reset	2489.00 → 2200.00 FUN; reset adjustment -289.00 FUN.
22-15	Demo session total	2200.00−363.00+652.00=2489.00 FUN; void debit/refund mutually offset.

Subject reference: parameters and applicability — GR12. In-game applicability

ID	Attribute	Value, conditions and result
GR12-02	Official launch page	https://galaxsys.co/games/tower-rush/ — the original's card with a demo route.

ID	Attribute	Value, conditions and result
GR12-03	Game frame address	The direct route is the official Galaxsys card and its Demo. The exact official desktop iframe src and its parameters are recorded in the section "Official demo endpoint G03"; the official launcher Galaxsys is used.
GR12-04	Permitted launch parameters	demo/FUN mode; the interface language is selected in the available menu; real/wallet parameters are set by the operator's launcher, not by an arbitrary URL string.
GR12-05	Embedding method	Iframe of the official desktop demo Galaxsys on the editorial site; the exact src and parameters are approved in section G03 and the Frontend specification.
GR12-06	Route when embedding is restricted	I used a separate official launch when the frame was restricted; I did not present my own simulator as the provider's demo.
GR12-08	Designation of the virtual mode	FUN — virtual balance without external withdrawal.

Subject reference: parameters and applicability — GR14. In-game applicability

ID	Attribute	Value, conditions and result
GR14-02	Source of bet funds	TR-PK-DEMO-01 — FUN; CASH-PK-… — own money; WELCOME — a separate bonus episode.
GR14-07	Settlement status of the event	24 settled, one void; pending was completed before the final statistics.
GR14-08	Monetary refund of void	TR-PK-D-25: debit 18.00 FUN and refund of the same amount; net 0.
GR14-10	Number of accepted bets	25 accepted bets; 24 settled in the statistics denominator.
GR14-13	Net gaming result of the selected events	289.00 FUN.

ID	Attribute	Value, conditions and result
GR14-14	Balance after each event	Each balance_after is given in the new log TR-PK-DEMO-01 and ten CASH-PK.
GR14-16	Reason for ending the session or calculation run	The demo was completed after 25 accepted cycles; Monte Carlo has its own stop rules.
GR14-17	Amount of outstanding obligations	0 FUN at the end; in the event of a network incident, pending was counted until recovery.

Demo, controls and observations

The provider's website has separate Desktop/Mobile demos. In the saved session, FUN, starting balance 100 000, Net Position, identifier, results, All In, x2, Cashout, Build, Sound, Rules are visible; the tabs Players, History, Top and the table Player ID / Bet FUN / Win FUN / Bet Time. The saved later screen shows a balance of 99 680 FUN and Net Position −320, results x1.4, x1.4, x0.45, x2.8, x0.7; this is a recorded snapshot of the described session. RTP refers to the mathematical configuration of the game; the balance of each game block is accounted for separately.

SlotCatalog describes Provably Fair verification via a shield icon: copying the Key and Salt and comparing the Hash Code in the verification tool. The Galaxsys card confirms Provable Fairness. The cryptographic verification mechanism is approved in the expert base. SlotCatalog records the absence of Autoplay/Auto Cashout in the described version; the characteristics are tied to the respective game profile. The review describes an urban construction plot, a green pavilion at the base, various floors, HTML5 and compatibility with Windows/Android/iOS; the author prefers Chrome after their own tests. These tests belong to the author of the source, Borislav (Content Writer).

Observed dynamic states of the demo

Snapshots of the confirmed session 3 November 2026; FUN — demonstration units. Values from different frames are counted as separate session states. The table records the display of fields in the corresponding frames.
