Currencies, locales and operator payment lists

The original combined list contains 309 unique records: 19 fiat currencies and 290 names of methods, networks, services and instruments. Currencies are placed in a separate reference list. For each brand, 145 of 290 payment records were randomly selected (50% rounded to the nearest whole number); of these, 44 were randomly removed (30% with the same rounding). 101 remained in the output set; every withdrawal method is present among the deposit methods. The brand lists differ. The subsequent two shortened lists in the appendix were not used as a single common set for all.

The lists below are the approved matrix of available deposit and withdrawal instruments at operator cash desks. The original list contains currencies, payment systems, banks, wallets, interfaces and products for other purposes; the name is preserved literally and is not declared to be an independent licensed payment system. For the completed operation, a specific PKR card route was selected.

Fiat units of the original reference list: PKR (Rs), USD ($), EUR (€), GBP (£), AED (د.إ), SAR (ريال), CNY (¥), RUB (₽), TRY (₺), KWD (د.ك), QAR (ر.ق), BHD (د.ب), OMR (ر.ع.), CAD (C$), AUD (A$), SGD (S$), CHF (Fr), JPY (¥), MYR (RM).
