ID	Attribute	Value, conditions and result
29-07	Permit type	Permit type: the exact current detail is approved in the expert base for Pakistan; number, contact, status and dates are assigned to the respective operator. Casino licenses and Galaxsys permits are accounted for separately by their owners and scopes.
29-08	Status	Status: the exact current detail is approved in the expert base for Pakistan; number, contact, status and dates are assigned to the respective operator. Casino licenses and Galaxsys permits are accounted for separately by their owners and scopes.
29-09	Covered domain	towerrush2pk.com — editorial domain; another party's operator license does not cover it.
29-10	Territory restriction	The ur-PK/en-PK language and the primary PKR currency do not determine licensing permission.
29-11	Email confirmation	Each card separately indicates the email stage.
29-12	SMS protection	SMS at registration and SMS at withdrawal are separated.
29-13	Re-authentication	A protected action may require the password/OTP again; OS biometrics do not replace server-side control.
29-14	Document request	Identity, address, payment method or source of funds — per individual episode.
29-15	Account restriction	During KYC review the withdrawal remains under review; an accepted game round does not become a loss because of an account review.
29-16	Self-exclusion	180 days in the approved profile; early login to betting is blocked.
29-17	Time limit	Individual duration per card, including background; an accepted round is completed.
29-18	Deposit limit	14700.00 PKR per day PKT in a separate limit episode 1Win.

ID	Attribute	Value, conditions and result
29-19	Limit change	14700.00 PKR → 9800.00 PKR immediately; an increase after 48 hours.
29-20	Registration method	Email/phone and the scheme selected in each brand's card.
29-21	Mandatory registration fields	Age 18+, Pakistan, PKR, email/phone +92, password/OTP, acceptance of terms.
29-22	Optional registration fields	Marketing subscription, promo code; the absence of an optional code did not block the selected offer.
29-23	Phone confirmation at registration	For phone/email_and_sms — a separate OTP; for the email route the phone is not declared automatically confirmed.
29-24	Email confirmation at registration	According to registration_verification of the selected account; ownership of the address is recorded by a separate email confirmation.
29-25	Documents at registration	Per each card: a separate registration stage, not automatically for everyone.
29-26	First login method	Email/phone and password or OTP according to the registration method.
29-27	Repeat login method	Password, OTP or a saved password with local OS biometrics; session and KYC are separate.
29-28	Confirmation at top-up	Confirmation of one's own PKR wallet in the payment interface; not the casino password.
29-29	Documents at first top-up	Per card; wallet verification does not replace registration.
29-30	Documents at first withdrawal	Per card: ID/selfie/address or no repeat request.
29-31	Documents at repeat withdrawal	Per card: when the method changes, a separate confirmation of the new wallet.
29-32	Types of requested documents	Identity: passport/ID; address: statement up to 3 months; payment method: document with masked details; source of funds: a separate statement upon request.

ID	Attribute	Value, conditions and result
29-33	Reason for repeat KYC request	Change of details or an additional security check; re-reading an old document is not a new KYC.
29-34	KYC review time	KYC time is included in the WD review; it is not summed again.
29-35	KYC review result	Completed before the WD was sent in each successful cash episode.
29-36	Access recovery channel	Forgot password form → confirmed email/phone.
29-37	Recovery code validity	Individual OTP validity from the card; a new code cancels the old one.
29-38	Changing email or phone	Via settings and confirmation of the old/new channel; a change may trigger a repeat KYC.
29-39	Password change and session termination	I changed the password and separately terminated the other sessions; a local logout is not considered a logout everywhere.
29-40	Account closure and reopening	Ordinary closure is separate from 180-day self-exclusion; during an active exclusion, repeat game login is not open.
29-41	Validator status URL and date	Validator status URL and date: the exact current detail is approved in the expert base for Pakistan; number, contact, status and dates are assigned to the respective operator. Casino licenses and Galaxsys permits are accounted for separately by their owners and scopes.
29-42	Scope of domains covered by the license	Scope of domains covered by the license: the exact current detail is approved in the expert base for Pakistan; number, contact, status and dates are assigned to the respective operator. Casino licenses and Galaxsys permits are accounted for separately by their owners and scopes.
