Tower Rush

Editorial site, data and materials

Attribute	Value
Form storage	90 days after the request is closed
Email copy	120 days after the request is closed
Technical log	14 days after the event; without bank details and passwords
Backup	30 days from creation; deleting the working record does not erase the backup instantly
Analytics	Aggregate views after consent; term 60 days; advertising pixels are not provided
Cookies	Necessary — session/language setting; analytical — separate consent
Form provider	External service and data transfer are not included in the confirmed profile
Newsletter	Not provided; casino marketing consent does not mean a subscription to the editorial team

Subject reference: parameters and applicability — 32. Editorial site

ID	Attribute	Value, conditions and result
32-03	Personal data contact	The contact responsible for data requests is the editorial team of its own site, not the casino's KYC service.
32-07	Consent	Separate consent to process the request; marketing subscription is not included automatically.
32-10	Analytics	Aggregate views after separate consent; storage for 60 days.
32-11	Cookies	Necessary language/session settings; analytics after consent; no advertising.
32-12	Email copies	120 days after the request is closed.

ID	Attribute	Value, conditions and result
32-13	Request storage	90 calendar days after the request is closed.
32-14	Logs	Service delivery/error logs — 14 days from the event; payment content is not recorded there.
32-15	Backups	Backup rotation — 30 days; deleting a working record does not mean instant deletion of the backup.
32-16	AI assistant	The AI assistant on the site is not included in the editorial profile.
32-17	AI history on the site side	There is no AI history on the site, since the feature does not exist.
32-25	Site forms by purpose	The editorial question form and the data request form have different purposes; name/email/message/subject are listed separately, storage for 90 days from closure.
32-28	Newsletter parameters	The newsletter is not enabled; no subscription provider or advertising database has been assigned.
32-29	Analytics provider	Own aggregate analytics without an external provider; only after consent.
32-30	Advertising pixels	Advertising pixels are disabled in the specification; the editorial team does not receive betting events.
32-31	Cookie categories	Necessary settings and analytics by consent; advertising pixels are disabled.
32-32	Hosting provider and location	The hosting provider, deployment region and parameters of the external processor are approved in the project's infrastructure profile.
32-33	Personal data controller	The editorial data contact is the author's editorial team within its own scope; the casino operator is responsible for its own KYC.
32-34	Data category and recipient	Email/name/message — editorial request; technical event — delivery log; KYC documents — operator only, not the editorial team.

Tower Rush

ID	Attribute	Value, conditions and result
32-35	Storage period start event	Request: closure; log: time of event; backup: date the copy was created.
32-36	Deletion of the working record	The working request is deleted after 90 days from closure; email copy 120 days, backup 30 days separately.
32-37	Deletion from the backup	The last copy expires under the 30-day rotation; restoration must not return expired requests to the working database.
32-38	AI provider, model and region	There is no AI provider, model or region in the minimal architecture.
32-39	Storage configuration at the AI provider	There are no calls from the site to an AI provider; the parameters of the store and its logs are not assigned to a non-existent service.
